

News Release

Date: July 7, 2010

Contact: Dawn Johnson, Public Information Officer

Cooling Center

Clark County Fire District 6 will open a cooling center at its Felida Fire Station at noon today. Today's cooling center will close at 8pm and reopen at noon tomorrow and again on Friday. Summer heat waves are most dangerous in climates like ours, because many people are not prepared. Many homes and apartments are without air conditioning which can make surviving in extreme temperatures a challenge. Seniors, people with heart conditions, and high blood pressure are most at risk in the extreme heat. We're attempting to partner with an agency to provide transportation for that most vulnerable population, since often times they are also unable to get around on their own. We do have someone available today to talk about the heat and the potential dangers.

What: Cooling Center

When: July 7, 8, and 9 from noon-8pm

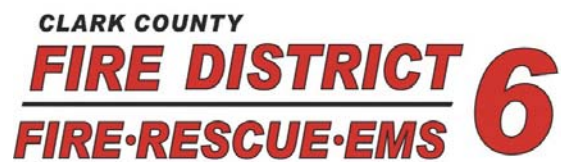

Where: Fire District 6 Felida Station, 11600 NW Lakeshore Ave., Vancouver, WA, 98685
