

# **PARDON OUR NOISE**

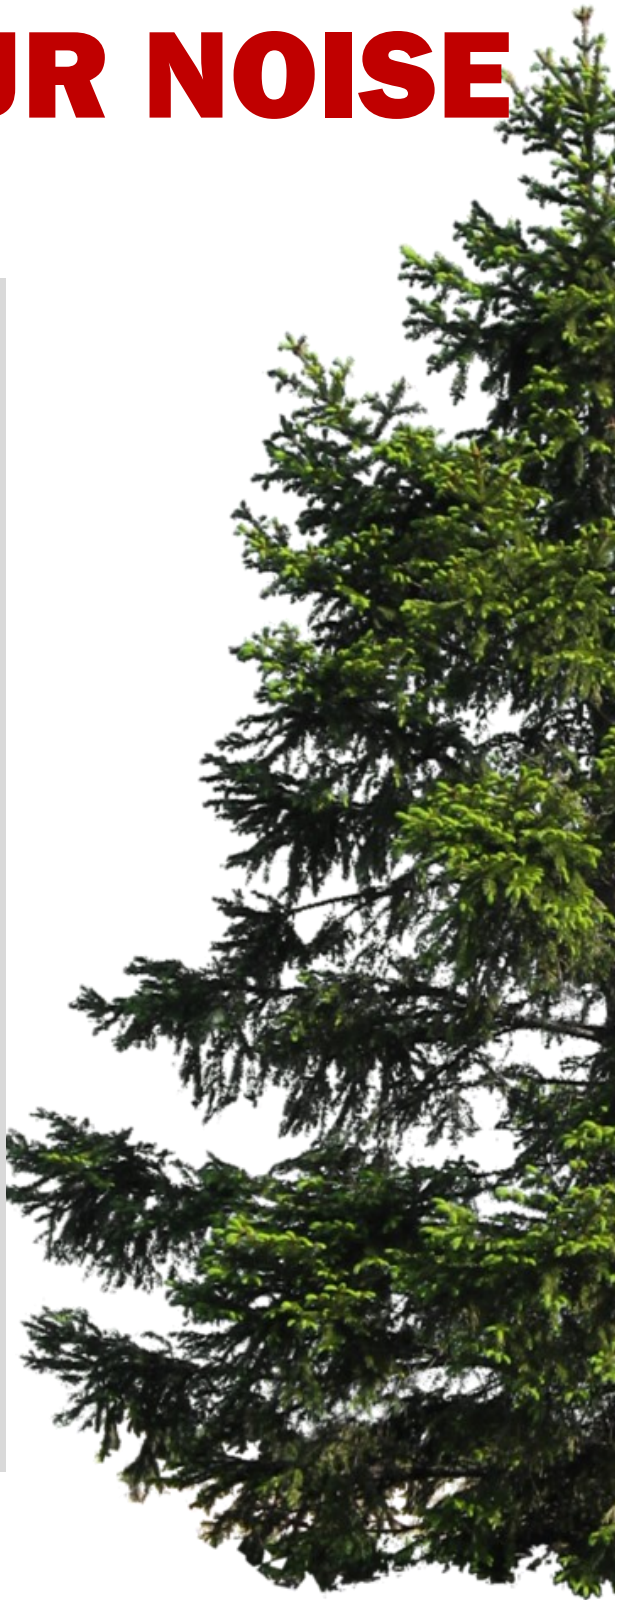

**Trees, like people, can get sick. And we've got a sick tree behind Fire Station 62 that unfortunately has to come out before it becomes a hazard.**

**All the other 34 trees lining the Felida Station are in desperate need of a trim. We don't want any of those big branches falling in your back yard!**

**So during the days of June 6th to June 9th licensed contractors will be removing one tree and trimming the others.**

**The contractor has been instructed to NOT start work before 9 a.m., and they've also been told to minimize distractions to the neighborhoods' routine.**

**We understand that fir trees are as much a part of the Pacific Northwest as, well, rain. And as much as we hate to cut down anything as beautiful as a fir tree we must balance aesthetics with safety.**

If you have any questions or concerns about this project please contact Assistant Logistics Chief, Shawn Newberry.
